

NOT ONE MORE POWER PLANT ON OXNARD'S COAST

THE CALIFORNIA PUBLIC UTILITIES COMMISSION IS COMING TO OXNARD TO HEAR FROM THE PUBLIC WHETHER TO APPROVE ANOTHER POLLUTING POWER PLANT ON OXNARD'S BEACHES.

JOIN US TO TELL THEM TO VOTE NO!

THE PROPOSED POWER PLANT WILL BE BUILT IN AN ENVIRONMENTALLY SENSITIVE AREA VULNERABLE TO DISASTROUS FLOODING.

3 OXNARD POWER PLANTS
=
THE MOST POWER PLANTS IN CALIFORNIA

OXNARD IS ALREADY IN THE TOP 10% MOST HIGHLY IMPACTED ZIP CODES IN CALIFORNIA AND HAS SOME OF THE WORSE TOXIC AIR EMISSIONS IN THE STATE.

THE PROPOSED OXNARD POWER PLANT IS PART OF A PATTERN OF DUMPING POLLUTION IN COMMUNITIES OF COLOR THAT IMPACTS LOW-INCOME FAMILIES.

- OXNARD POWER PLANT = CLIMATE CHAOS
- WILL SPEW 600,000 TONS OF CO₂/YEAR INTO THE AIR
 - WILL EMIT LARGE QUANTITIES OF METHANE WITH 20X THE GLOBAL WARMING POTENTIAL THAN CO₂
 - WILL LEAD TO RESPIRATORY ILLNESS LIKE ASTHMA

THE OXNARD COASTLINE WILL NOT BE USED AS AN ENVIRONMENTAL DUMPING GROUND ANY LONGER.

OXNARD'S LOW-INCOME, LATINO AND IMMIGRANT FAMILIES HAVE BORNE THE BURDEN OF POLLUTION FOR TOO LONG.

IT'S TIME FOR OXNARD TO HAVE THE BEAUTIFUL COASTLINE WE DESERVE.

UNPLUG DIRTY ENERGY AND POWER UP OUR COMMUNITIES WITH CLEAN RENEWABLE ENERGY!
