The Organization
The California Environmental Justice Alliance (CEJA) is a statewide coalition of grassroots, community-based organizations that works to achieve environmental justice by advancing state level policy solutions. We unite the powerful local organizing of our members in the communities most impacted by pollution and environmental hazards—low-income communities and communities of color—to create comprehensive opportunities for change at a statewide level. We build the power of communities across California to advance policies that will alleviate poverty and pollution and protect the environment and our health. We have six core members and five partners across California. Collectively, we represent approximately 30,000 Asian American and Pacific Islanders, Latino, and African American residents in the San Francisco Bay Area, San Joaquin Valley, Central Coast, Los Angeles, Inland Valley and San Diego/Tijuana area. We combine organizing, movement-building, and strategic policy advocacy to grow a statewide movement for environmental health, economic and social justice.

About You
The ideal candidate will have an impassioned vision for social and environmental justice and a proven track record of movement-building. The ideal candidate will also have a grassroots and bottom-up mindset, and a deep commitment to anti-racism and systems change. You are an experienced organizational culture and organizational development practitioner who understands and models community, care, collaboration, mutual support, integrity, sustainability, and transparency - all built on racial and social justice principles. You have strong alignment across CEJA's core members, partners and staff on purpose, vision, and guiding values. You have a knack for understanding complex systems, including internal systems and policy and political systems. You have fundraising and financial health expertise that can support CEJA as a growing organization. You are excited about change and have flexibility to adapt to emerging circumstances.
